Purpose & Structure

Purpose

The goal of Wildlife.ai is to promote the use of artificial intelligence for the protection of biodiversity. To achieve our goal we: 1) educate people about the applications and benefits of using artificial intelligence for the conservation and protection of species worldwide and 2) support, in terms of funding, labour and logistics to individuals and organisations using any form of artificial intelligence for wildlife conservation.

Entity Structure

Currently, Wildlife.ai is formed by four trustees. Our trust deed states that we must have between two and ten Trustees.
